Custom Views and Databases

Be assertive, save time, and improve your workflows with Adaptive Telehealth.

Our platform allows custom dashboard configuration and labels to suit your needs.

1

Custom Database: Create your own fields to match your mission, use fields in different role views and customize reports from your database.

2

Custom views: Turn on/off views of different functions for different users.

3

Dashboard Configuration: Choose the custom fields & custom database items to display on your dashboard.

4

Labels: Option to label status fields. Apply the terminology of your practice to the platform and change user role names.

Not sure where to begin?

We are always here for you. If you have any questions, our support team is happy to talk.
